- Back-end: NodeJS, Express, NestJs, APIs Rest, Data Caching, Microservices and Monolith Architectures
- Data Bases: MySQL, MongoDB
- Cloud, DevOps: Docker, GitHub, Git, CI/CD, Google Cloud
- Methodologies: Scrum, Clean code, Agile, Waterfall

WORK EXPERIENCE

Front-End
Clardia Tours | Oct 2025

- Developed and maintained responsive user interfaces for a tourism platform
- Improved user experience through modern UI practices and performance optimization
- Designed and implemented responsive package showcase components by dynamically mapping and iterating over structured JSON/array data, improving UI maintainability and component reusability.

Project Preview: www.clardiatours.com

STEMMOZ | Mar 2026 – Jul 2026

- Hands-on experience in assembling and programming robots using Arduino, Avishkaar and Rev Robotics.

- Supported teaching of programming and robotics in STEM educational environments and provided technical support at tech events.
- Involved in implementing Artificial Intelligence solutions for real-time posture analysis at the VisionHer event.
